

History

Developed and patented in the Netherlands by Mr. Jan P. de Baat Doelman, Scalewatcher technology was introduced to the European market in the 1980s.

With immediate market success, Mr. Doelman brought the technology to the United States and applied for and received a patent in 1991. From that moment, Scalewatcher North America has been on the forefront of environmentally sensitive water treatment. Located in Oxford, Pennsylvania, Scalewatcher North America continues to lead the industry in descaling products that do no harm to the environment.

Mission

Scalewatcher North America focuses on the elimination of scale and the problems associated with scale build-up. Industries know the costs involved in keeping their capital investments running smoothly. Scalewatcher is there to help. Scaled cooling towers, chillers and associated equipment can negatively impact a company's bottom line, and not just in cash. The caustic chemicals used to remove scale only create more problems with the environment. Your
